ARTICLE 1 PROJECT DESCRIPTION AND BUDGET

Building Name: Lovelock Correctional Center – Culinary/Gym/Dining Bldg. #3

Gross Building Area: 32,000 square feet (total Bldg. #3)

Established Construction Budget: \$7,467,004

General Project Description:

This project will design and construct a renovation to the Culinary at Lovelock Correctional Center. This project will remove and replace quarry tile flooring, install stainless steel cove base (including coolers and freezers), and replace the ceiling and lighting. This project will also replace the waste piping, floor drains, floor sinks, and kitchen exhaust fans. Additionally, kitchen cooking equipment will be replaced as part of this project.

The condition of the original tile presents safety (tripping and standing water) and health (bacteria and mold) issues. The culinary floor is missing tiles and has low and high spots. The Culinary ceiling and lighting are in poor condition and need replacement. The kitchen exhaust fans are original to the building and most of the fans are not functional. Most of the kitchen cooking equipment is original to the building and is failing. The Lovelock Correctional Center Building #3 (Gym / Culinary / Dining) was constructed in 1993.
